

Year 4 – Science – Living things and their habitats

Concept: Evolution – Understand reproduction and how living things have adapted over time

Vocabulary

classification: grouping something based on its features

respiration: taking in oxygen

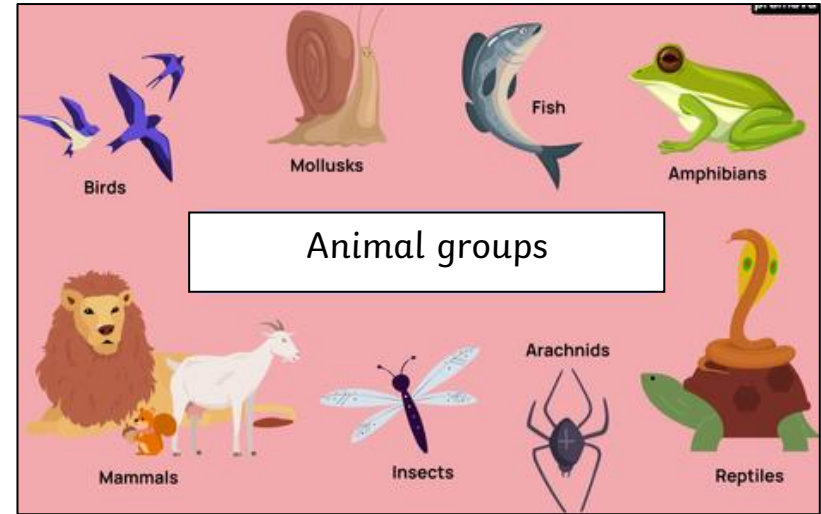

excretion: getting rid of waste

reproduction: parents producing offspring

nutrition: getting the food that is needed for healthy growth

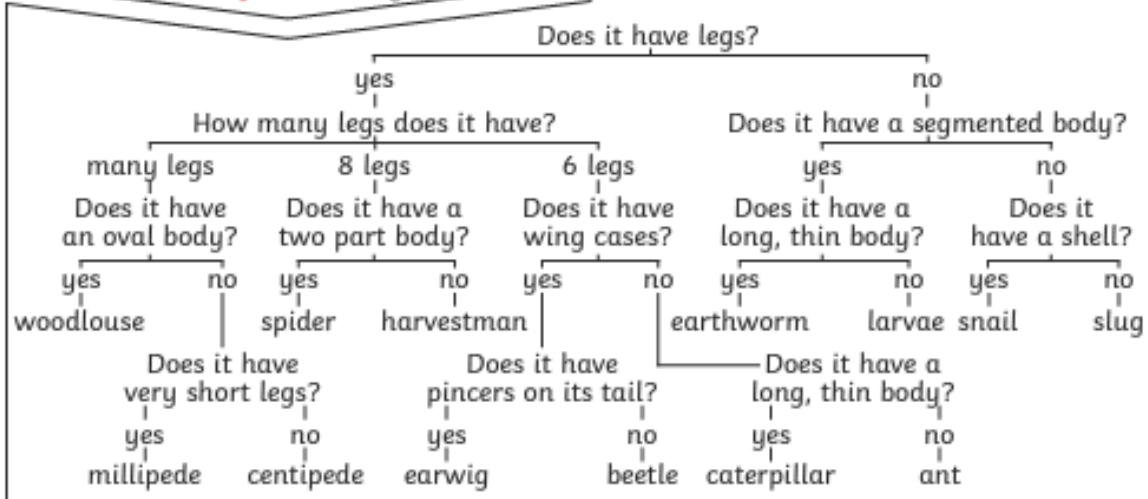

- M**ovement
- R**espiration
- S**ensitivity
- G**rowth
- R**eproduction
- E**xcretion
- N**utrition

Characteristics of living things

You can use **classification** keys to help group, identify and name a variety of living things. Here is an example of a **classification key**:

Invertebrate Classification Key

Environments can change for many different reasons.

Some are manmade – pollution, deforestation, global warming.

Others are natural – earthquakes, droughts, floods
